

## Just the Basics

Skip Degan, CFI, ASEL, Instrument, AGI, IGI, has put together a 15-minute video to introduce pilots to the basics of tailwheel airplanes. Tailwheel Basics explores the differences between conventional and tricycle geared aircraft, and explains the basic concepts needed to earn a tailwheel endorsement. Included is a three-page booklet explaining the tailwheel transition.

The video is available in VHS or DVD formats for \$19.95.
