

Talk-N-Klip and Talk-N-Nav are presently designed to fit the two classic Cessna yokes styles shown below, found on many early 120's, 140's, 150's, 152's, 170's, 172's, 180's and 185's

Talk-N-Klip

Talk-N-Nav

Talk-N-Nav (photo above right) is designed to accommodate those folks already navigating with hand held Garmin or PDA GPS yoke mounted systems. Our yoke mount collar adapts to many standard GPS yoke mounts, or we can custom design one for you. Talk-N-Nav because of it's Aircraft Quality 6061-T6 Aluminum construction, is far more stable and viabration free in flight, than those made of molded plastic.

\$139.95 w/New PTT \$159.95
